### THE ARCH DINING TABLE

ASSEMBLY INSTRUCTIONS

### STEP: 4

### STEP: 5

#### **ADJUST FLOOR LEVELERS**

Your furniture has been expertly crafted and pre-adjusted by professionals. However, slight shifts can occur during transportation. If you notice that the doors are not perfectly aligned or the furniture wobbles, a quick adjustment can help ensure stability and a seamless look.

#### **ADJUST FLOOR LEVELERS**

**Check for Stability –** Place the furniture in its final position on a level surface. If it wobbles or doesn't sit evenly, the floor levelers need adjusting.

**Locate the Levelers –** These are small adjustable feet found at the bottom corners of your furniture.

Adjust as Needed – Using your hand or a wrench, turn the levelers clockwise to raise or counterclockwise to lower the furniture. Make small adjustments and check stability after each turn.
