Step 3

Step 4

★ **REMARK:**

There is a tip restraint kit provided on the back of this product. Please read the direction thoroughly and install immediately.

Tipping Hardware

Step 5

Adjusting floor levelers

Your furniture has been expertly crafted and re-adjusted by professionals. However, slight shifts can occur during transportation. If you notice that the furniture wobbles, a quick adjustment can help ensure stability and a seamless look.

Adjusting Floor Levelers

Check for stability - Place the furniture in its final position on a level surface. If it wobbles or doesn't sit evenly, the floor levelers need adjusting.

Locate the levelers - These are small adjustable feet found at the bottom corners of your furniture.

Adjust as needed - Using your hand or a wrench, turn the levelers clockwise to raise or counterclockwise to lower the furniture.

Make small adjustments and check stability after each turn.
